Weatherproof Keystone Jack

PLATINUM TOOLS®

The Weatherproof Keystone Jack allows for the installation of RJ45 ports in weather exposed areas. This IP64 rated jack mounts within a junction box or any 1" cutout for easy access to data while keeping the port away from the elements.

Features

- IP64 rated making it dustproof and splash-resistant
- Installs in any 1" knockout or threaded hole
- For both shielded and non-shielded cable
- Terminate with any 110 blade and punchdown tool
- O-ing seals on body and cap
- Rated for Cat6 terminations
- For use with RJ45 (8P8C) connectors
