

# ECO-TERMK-01

The Platinum Tools ECO-TERMK-01 Economy  
Fiber Optics Termination Kit

## A cost-effective solution designed to simplify and streamline fiber optic cable terminations.

This comprehensive kit includes all the essential tools required to ensure precise and reliable terminations, whether working in the field or in a controlled environment. Featuring a high-precision wheel cleaver capable of delivering up to 36,000 quality cleaves and a 650nm visual fault locator for enhanced accuracy during the termination process, the kit ensures professional-grade results without the need for additional verification tools. Compact and portable, this kit is neatly organized in a durable carrying case, making it the perfect choice for technicians and installers who need a dependable and easy-to-use solution for fiber optic projects.

### INCLUDED TOOLS

- **TOOL KIT CARRYING BAG AND STRAP:**  
For portability and organization.
- **PRECISION WHEEL FIBER CLEAVER:**  
High-quality cleaving for fiber optic terminations.
- **ARAMID STRAND SCISSORS:**  
Specially designed for cutting Kevlar strength members.
- **TRI-HOLE FIBER STRIPPERS:**  
For stripping various fiber cable coatings.
- **VISUAL FAULT LOCATOR (650NM):**  
To check for faults and confirm terminations.
- **ALCOHOL DISPENSING BOTTLE:**  
For cleaning fiber ends before termination.
- **FINE-POINT SHARPIE:**  
For precise marking during cable preparation.
- **METRIC POCKET RULER:**  
For accurate measurements.
- **FIBER OPTIC CLEANING WIPES:**  
Ensures clean and debris-free terminations.

### APPLICATIONS

#### PERFECT FOR INSTALLERS

Ideal for technicians and installers working on fiber optic cable terminations.

#### VERSATILE AND RELIABLE

Perfect for fieldwork, data centers, and telecom applications.
